

TRANSSEXUAL AND OTHER DISORDERS OF GENDER IDENTITY

a practical guide to management

'I conceived and edited this book because when asked for recommended reading on the practicalities of treatment for disorders of gender identity I had nothing to suggest to others. I was always able to provide lists of books which dealt with the classification of gender identity disorders, and texts rich with competing aetiological theories. There were also fascinating sociopolitical (including post-modern) expositions. The problem always came with recommending practical texts for everyday clinical use.' James Barrett, in the Preface

Contents: Second opinions * **Part 1: The referral process and screening** * Referrals * Diagnosis * Categorisation and differential diagnoses * Dealing with the differentials * Challenging patient types and circumstances * **Part 2: The real life experience** * Common issues * Challenging patients and circumstances * **Part 3: Non-surgical treatments** * Speech and language therapy * The practical management of hormonal treatment in adults with gender dysphoria * **Part 4 Surgical treatments for born males** * Feminisation of the larynx and voice * Breasts * Genital surgery * Advice for patients undergoing vaginoplasty and vulvoplasty * **Part 5 Surgical treatments for born females** * Breasts * Phalloplasty * **Part 6 Post-op psychological follow up** * Relationships * Reversion to former gender role after GRS * **Part 7 Legal issues** * The Gender Recognition Act * Military service * Religious matters * Fertility issues
